

## 12F Compact DIN Rail Mount Enclosure

This units compact size makes it perfect for installation in limited space. Convenient DIN Rail mounting allows for quick installation in existing termination cabinets. Rugged housing provides protection of terminations in harsh environments. Compact size, robust construction and industrial appearance integrates seamlessly with existing industrial equipment

### Application

- Process control and automation
- Industrial fibre optic control
- Infrastructure networks
- Port, power, road and rail networks
- Remote locations for security & surveillance networks

### Features

- The units compact size makes it perfect for installation in limited space
- Convenient DIN Rail mounting allows for quick installation in existing termination cabinets
- Rugged housing provides protection of terminations in harsh environments
- Compact size, robust construction and industrial appearance integrates seamlessly with existing industrial equipment
- Mid Grey Powdercoated 1.2mm & 1.6mm Steel

### Specifications

Part Number	Description	Dimensions WxHxD (mm)	Weight (kg)	Splice Capacity (max)	Gland Entry Size (mm)
OPL-DRE-12SC/T-UL	12F Compact DIN Rail Mount Enclosure	56 x 111 x 155 (w/out clip)	0.7	12F	Ø 25 x 2
OPL-DRE-24SC/T-UL	24F Compact DIN Rail Mount Enclosure	114 x 105 x 155 (w/out clip)	1.7	24F	Ø 25 x 4
