

48F Fibre Optic Termination Box IP54

Description

The HTTB-DG03 is designed for FTTx applications. It is suitable for splicing and patching optical cables. One side protects fibre optic splices and the other is used for distribution.

Features and Benefits

- Compact design (450 x 150 x 180 mm)
- LSZH material, free breathing box for indoor use
- In-line and butt configuration possible for main cable
- Wrap around cable seals for main cable and drops
- Not required to cut loop-through fibres from riser cable
- Compatible with mechanical splice, and heat shrink protective sleeves
- Transient free customer provisioning
- Drop cables are terminated individually
- Separate storage of un-connected fibres from spliced drop fibres
- Possibility to integrate PON splitters
- Main cable up to 16 mm diameter
