

Fibre Optic Adaptors/Bulkheads

Atg offers a wide variety of adaptor configuration for meeting almost any application. Patching, attaching the two connectors together in perfect alignment condition, is always the critical part of the network.

Couplers, hybrid adaptors, male to female type adaptors or bare fiber adaptor are available.

Standard simplex and duplex with different colours and materials can be found from atg. Quality sleeve is used as the core part at the adaptor for providing a precise alignment.

SC simplex with Flange (Blue, Aqua, Violet and SCA Green)
 SC simplex without Flange (Blue, Aqua, Violet and SCA Green)
 SC duplex with Flange (Blue, Aqua, Violet and SCA Green)

LC simplex without Flange (Blue and LCA Green)
 LC duplex with Flange (Blue, Aqua, Violet and LCA Green)
 LC duplex without Flange (Blue, Aqua, Violet and LCA Green)
 LC quad with Flange (Blue, Aqua, Violet and LCA Green)

ST (Red, Black Yellow)
 FC (Red and Green)
 SMA (Black)
 E2000 (Blue or Green)
 F3000 (Blue or Green)
 D4 (Black)
 MU (Brown)
 RJ45 (Black)
 MTP/MPO (Black)

The above are the more common Thru adaptors used in New Zealand however atg Technology can source the newer emerging thru adaptors as well
