

Fibre Inspection Scope with WiFi and USB

WiFi connectivity enables tether-free operation with Android or Apple iOS mobile devices including select VeEX test platforms.

USB operation is available for Windows PC applications or when WiFi use is prohibited. One-touch auto-focus along with powerful host software ensures fast, reliable connector inspection and end-face analysis according to relevant IEC standards.

Auto Focus Detection & Analysis

- Probe automatically performs and detects optimal image focus
- Focused image is automatically transferred to host device for viewing and Pass/Fail analysis per IEC 61300-3-35 standards
- No human intervention necessary during image focus, transfer and analysis process
- User can manually refocus/recapture images as required
- Report generation (html and PDF) directly from host device
- Image compare function enables before/after inspection for cleaning purposes

Ordering Information:

Part: VX-DI-3000

Description: Fibre Inspection Scope with WiFi and USB Auto-Focus Digital Fiber Inspection Microscope
